RULES OF THIS OFFICE.

Blanks for filling in Full Descriptions of Property will be mailed free to all applying.

All property placed in our hands verbally or in any other way, is understood to be subject to the following rules, from which there will be no deviation, except it be put in writing at the time of placing the property on our list.

1. We look for commissions always to the seller and never to the buyer.

2. Owners must set the price at which they will sell on which, if obtained, our commission will be based. We shall in no case undertake to get our pay by asking any advance upon such price.

3. Introducing or sending a customer to an owner, in case of sale, entitles us to commissions. (When desired by the owners we conduct the entire sale without extra charge.)

4. Property once placed on our list will be considered on sale at the price stated until we are notified to the contrary.

5. If no notice be given of advance in price, or withdrawal of property, and we furnish a customer at the price fixed we shall invariably claim our commission.

(The above regulations apply to sales, exchanges and rental of property)

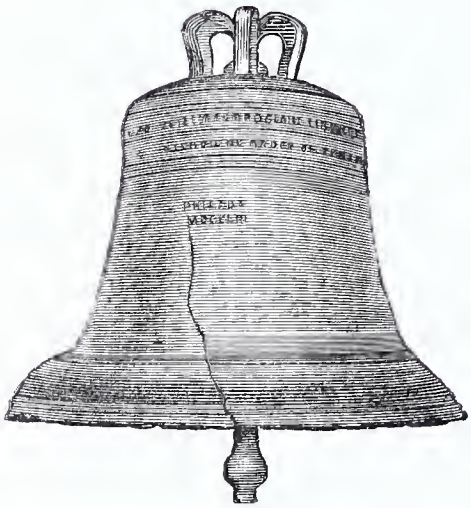
6. Information obtained from or through our office, directly or indirectly entitles us to our commission.

7. Commissions are due and payable upon the contract for sale, exchange or rent being signed by the parties thereto.

8. Any disagreement between the parties after signing said contract does not impair our claims for commissions.

9. Should an imperfect title prevent the consummation of a sale, it will not invalidate our claims for commissions. Owners should know their titles before asking our services.

As a simple matter of justice in protecting us in our commissions, we respectfully request all who may be led to purchase property herein described, without negotiating through us directly, to inform us of the fact; and as we never make a charge to the purchaser, but always look to the seller for our commission, no possible disadvantage can result in giving us the desired information, and thus enabling us to protect our own interests.



"THE OLD LIBERTY BELL."

INTRODUCTION.

IN OFFERING this journal to the public, it is our object not only to advertise the real estate, which is under our control, but we have an unselfish desire and care for the interests and well-being of others, by presenting to the minds of strangers the great advantages to be derived from being a resident of the "Capital City." In presenting the beauty of location, the healthfulness of climate, its facilities for education, its banking, mercantile, manufacturing and mechanical interests, we have endeavored to answer the many questions which will naturally arise in the minds of persons wishing to make Harrisburg their future home. This changing of our homes, we all know, is a subject of thoughtful consideration, especially so with families having children or wards to rear and educate, or place in business for themselves The first point of anxiety is set at rest by reading that department on school statistics, thus showing the great work of our public schools. It is always desirable for children to be educated under the eyes of parents, thus the reader can see the wonderful good in store for him or his in that direction. The second, like it, is also fully answered, merely by stating the experience. of some of our leading business men; if a young man attends to his business promptly and faithfully he can and will succeed.

We have aimed to be brief and pointed in as many items as our space will admit, the interests of our city demand to be brought before the many, and hope our Journal may pass into the hands of some who may be induced to call and see the grand facilities offered in this the "Capital City" of the Old Keystone State.

TO REAL ESTATE OWNERS AND BUSINESS MEN.

We propose to issue monthly editions to this work for the purpose of giving those who have not had an opportunity, or been called on by us, to advertise in the same.

THEO. KNUDSEN'S

INSURANCE AGENCY,

229 WALNUT STREET,

HARRISBURG, PA.

TO PROPERTY OWNERS.

There are few matters of more importance to property owners, and yet so little understood, as Fire Insurance; your property, your solvency, your future comfort may depend upon the character of your Insurance, and yet few know even the *names* of the Companies whose policies they hold, much less their history, reputation or standing.

These are times of peculiar recklessness in the business of Insurance; Companies are weakening, some failing or retiring, while others are *overloading* with *liabilities* at *inadiquate* rates, and must sooner or later reap the results of an unprofitable business.

Look well into these things for yourselves.

First of all to adequate *security*—the *best* security is *none too good.*

Next to the *management*—capital without sound management is like some charitable institutions with only precarious existence. You can best judge of this from a Company's *age, record* and the *character of its assets*—but especially from its reputation whether it is securing *good rates* or selling its policies at *any* price.

Everything has its price—offering Insurance at low rates means inherent weakness and constitutional infirmity.

Insurance is not the growth of a day.

Governed by the law of average rates have become *fixed facts.* If a Company writes at too low rates it cannot pay interest on its capital, nor its expenses, nor its losses promptly, and finally to make ends meet, it has to take a last resource to *short* adjustments—this is the history of many.

If you pay for Insurance, you want it for protection in time of trial—but if you should insist on paying *your own price*—like goods bought at auction you are apt to be cheated.

The *cheapest Insurance* is not *the safest.* Price is the test of quality.

Among the Companies that have stood the test of time, and pay dollar for dollar, you will find on next page.

No. 118. $7,500

A large and commodious double two and-a-half story stone house and fiftcen acress of land, situated in Darlington, the county seat of Lafayette county, Wisconsin. It is on the corner of the two main traveled streets—but thirty yards from the Picatanica river—commands a fine water power, beautiful shade trees, evergreens, flowers and gardens of choice fruit, apples, pears, plums, grapes, &c.; a truck garden which supplies the family with all the vegetables required. The house is suitable and in fact used for two families, and part rented, the other occupied by the owner. On first floor: parlor, sitting room, bed-room, hall, dining room and kitchen; second floor: four bed rooms, two on each side of the hall; third floor: one large ball room extending over the house; a large wood-house, cistern under kitchen, good celler, servants bed-room over the kitchen, out-buildings, stable, &c.; the other part of the house is the same discription. The house was intended for a hotel, but has been used for private residences. It is suited for a flax or straw-goods factory, the former is greatly needed at the place as a large amount of flax is raised in the neighborhood, and there is no factory to work it up. There are two cisterns, two wells, and the Picatanica river at the door. The building is of stone, well finished and substantially built, commands a fine view of the city, and is in a beautiful and healthy locality. Darlingtou, the county seat, is on the Picatanica river, and also on the Warren & Mineral Poiut Railroad; a branch of the Illinois Ceutral Railway; about 170 miles west of Chicago, Ill., or Milwaukee, Wis. The owner of the property intends moving to Missouri, and now offers the property at a great bargain. The grounds could be laid out in a large number of lawn lots, and eventually as the city grows this will have to be done, and when the lots are laid out they will more than pay the cost of the property, leaving the residence with sufficient land as clear profit. Title perfect and free from incumbrance. One-third cash, balanee in one and two years, secured by bond and mortgage, with interest at 6 per cent.

No. 119. Price, $3,200.

A three-story brick dwelling and business stand, situated on the south side of Broad street, No. 323. This land can be bought on reasonable terms.

BUILD A HOME.

Take root somewhere, fellow comrade,
Look out for the rainy day;
Don't float down the stream with driftwood
'Mong the slush that floats away.
Cease your dreaming of the castle,
With its lofty spires and dome,
Steer for some prolific harbor,
Go to work and build a home.

Riches never come by wishing,
Nor are castles built of dreams,
They are only gay and dazzling,
Like the sun's golden beams.
Leave your wishing, dreaming, sailing,
'Mid the bubbles and the foam,
And select some spot that's pleasant—
Go to work and build a home.

Fast are autumn's days approaching—
Down the river lies the bay,
Where you'll find not many landings,
After youth hath passed away.
Then I pray you take root somewhere,
It is time you cease to roam,
Say you will, that's half the battle—
Go to work and build a home.

CORRECT—"BUILD A HOME."

Yes, young man, say you will, that's half the battle. A grand opportunity! 80 building lots beautifully located on Sixth above Maclay street, ranging from 16 to 20 feet front, 87 to 125 feet deep. The above lots are elevated, and on level ground, commanding a grand view of the country for miles. No doubt the first remark will be, too far up town. We'll grant it. How many years since the same remark was made in reference to North, then Broad streets, Home of the Friendless, &c. Five years ago scarcely a house was to be seen near the Home of the Friendless; now, almost surrounded. Mr. W. C. Stores has just finished (and are all occupied) eight elegant three-story bricks on Kelker street near Sixth, and has commenced thirteen more. Mr. John Oenslager has under construction, and part under roof, 42 brick houses on Sixth above Kelker street. A few more enterprising men in that locality like

these would largely enhance the value of Sixth street lots. As North and Broad streets are to-day almost the center of the city, so will Maclay and Woodbine streets be in ten years hence. What is wanted—"enterprise!" manufacturing establishments! No finer site in the country for paper mills, cotton factory, shoe factory, shoe last factory, shoe peg factory, pin factory, toy factory, furniture factory or glass works. Why should we not have at least one of each of the above establishments? Having the Susquehanna River for rafting, Pennsylvania Canal, Pennsylvania Railroad, Cumberland Valley Railroad, Northern Central Railroad, Philadelphia and Reading Railroad and Schuylkill and Susquehanna Railroad for shipping purposes; Harrisburg has fine facilities for manufacturing, and is one of the chief cities of the commonwealth. Among the marvels of enterprise, look at the Pennsylvania Steel Works; 2,000 or more operatives find employment in the steel works, and the surrounding grounds, even the hill tops are covered with their dwellings. Ewington, also a suburb of the city, is another example of energy, enterprise and success. Since August, 1876, 88 houses have been erected, 13 houses are now in course of erection, and 40 others are projected for the present building season. Grand opportunities offered to build up with a flourishing town—you should go and see the place; no one can form an idea what the place is or will be without spending half a day in and around the steel works—it is well worth the time. So in the northern part of the city the magnificent sites for private residences will ere long be changed from corn and potato patches to beautiful lawns, and the architects' skill will be displayed by sand stone fronts.

Encourage every one, especially young men, to come and settle among us, particularly those who are active and worthy. Their labor alone is worth money. Those who have capital will buy lots, build houses, encourage every legitimate enterprise by giving it encouragement, or by uniting your industry, influence and capital in the common cause. Who will be the first to build a fine residence away from the noise and bustle of business? We are always ready to show properties or lots to any who wish to invest.

The Grandest Property

IN THE

CITY OF HARRISBURG

KNOWN AS

BRANT'S HALL,

FOR SALE

—BY—

ROHRER & SON.

The "Boss" Building of the City,

Containing the magnificent Grand Hotel, with 40 sleeping rooms, kept by J. Russ, in part of its front; and the largest wholesale Notion Store in central Pennsylvania known as the Hench & Stewart establishment, in the other part; two magnificent Theatrical Auditoriums, each capable of seating eight hundred persons; the income of which when all occupied would be sufficient to pay the price asked for it in five years. This building has a magnificent frontage on Market street of 50 feet, in the very business heart of the city, adjoining the Court House on one side and Bergner's mammoth printing establishment on the other. It has a depth of 210 feet from Market street to Strawberry ave. This building is remarkable for its colossal proportions, magnificent columns, and its palatial corridors. This opportunity for any capitalists or company of associated capitalists is the grandest ever offered to the citizens of Harrisburg or central Pennsylvania. The bar room and its saloon, and the wholesale Notion Store of Messrs. Hench & Stewart, have each a frontage of 25 feet and a depth of 150 feet.

The only reason of the offer for sale, is that the proprietor is desirious of retiring permanently from business and the city. The property is in good condition. Terms reasonable, and price low. Call at our office for further information.

BUSINESS INFORMATION.

BANKS.—Harrisburg National Bank, S. Market square. Capital $300,000. Incorporated as a State Bank 1814. Organized as a National Bank 1864. Dr. Geo. W. Reily, President; Jeremiah Uhler, Cashier.

First National Bank, cor. Second and Walnut streets. Capital $100,000. Wm. Colder, President; G. H. Small, Cashier.

Mechanics Bank, S. E. cor. Third and Market streets. Capital $50,000. J. C. Bombarger, Cashier.

Farmers Bank, cor. Third and Market streets. Organized 1872. Capital $100,000. Daniel Eppley, President; F. C. Fink, Cashier.

Dauphin Deposit Bank. Capital 100,000. Organized 1834. W. K. Alricks, Cashier.

The above banks passed through the panic without either suspension or any material curtailment of accommodations, (when gold leaf paper was presented) an evidence of their strength as well as the financial ability of the institutions.

GAS.—The city is supplied with two gas companies. Mains of old Gas Company 13 miles; price per 1,000 feet 90 cents. New Company's mains 15½ miles; price per 1,000 feet $1. The gas produced by these companies is of an excellent quality, and furnished at lower rates than in any other city or town in the State; another great inducement for persons to purchase, and move to the city of Harrisburg.

THE GROCERY INTEREST.—The State Capitol Grocery house on the corner of Third and State streets, is one of the interesting institutions of our great city. Being centrally located, it affords an opportunity for every family in the central part of the city to call and see the complete assortment of imported and staple goods that is daily received, and the large variety of articles which go to make up the grocery trade. The proprietor of the State Capitol Grocery is an active, energetic and reliable young man, of fine business qualities, and understands the wants of his customers. Buying all his goods for cash enables him to sell at the very lowest possible prices. Another important item in the business of the State Capitol Grocery is the Golden Sheaf Family Flour manu-

factured at Oyster's Mills, Cumberland County, Pa. For first class groceries and honorable dealing we can heartily recommend the State Capitol Grocery.

THE DRUG TRADE.—The drug trade, being of a very reliable and permanent character, has laid the foundation of many mammoth firms and large fortunes in this country. An influential house of this character is that of Dr. C. T. George, our up town druggist, the best establishment of this kind in central Pennsylvania. Why Dr. George should be patronized: 1st, thorough acquaintance with the business; 2d, a careful study of the wants of the trade; 3d, great skill and judgment in purchasing and selecting stock; 4th, keeping none but the best quality of goods; and lastly, fine business ability, united with energy and industry, and a pleasent and sociable bearing. It is pleasant to claim for the citizens of West Harrisburg, as well as the city, a drug house of such rank. Look carefully at the advertisement.

NOTIONS.—The notion business is a very important branch of trade in the capitol city. The leading establishment in this trade is that of Messrs. S. A. Hench & Co., No. 225 Market street, near the Lochiel Hotel. Do not forget the place—225. Our country has been a prolific producer of novelties, and these have been embodied in small articles for the convenience and adornment of the "fair ones," who could not possibly arrange their toilets without such an establishment as the above referred to. Messrs. Hench & Co. are always ready to meet their customers and friends with a hearty "how do-you-do," ever ready to show their immense stock, and with their smiling sales-ladies who stand ready to wait on customers, and never think it a trouble to show goods. It is useless to add words. Their goods for quantity, quality, style and cheapness, can not be excelled in central Pennsylvania. Call and see for yourselves. If we are wrong, tell us. See advertisement.

PLUMBING AND GAS FITTING INTERESTS.—One of the most important branches of industry connected with our city is that of Plumbing and Gas Fitting; one that could not be easily dispensed with, particularly where water is so pure and plenty, and gas so cheap. The most noticeable in this branch, is the firm of Messrs. Lysle & Poole, No. 210 South Second street, successors to Marshbank & Poole. Messrs. Lysle & Poole are both active and energetic young men, gentlemen of good

judgment, honorable, liberal in charges and thorough practical workmen. We would ask for them a liberal share of patronage. See advertisement.

PIANO AND ORGAN INTERESTS.—The civilization and education of a people is measured by the degree in which it cultivates the fine arts. If this is correct, our country has attained a development of civilization which but a few years ago would have been regarded as impossible. The true place of this art is the altar of "home," when it shines calm and effulgent, animating or soothing in turn, in the form of domestic musical harmony. Harrisburg has become famous for its musical taste, and for the skill of its musicians, developed under the stimulus of various societies and institutions. It has several establishments in which musical instruments are sold, but the one which has risen to most prominence and popularity is that of Mr. Silas Ward, No. 223 Market etreet, opposite the Court House. The history of this house illustrates how much unswerving integrity, close attention to business, and knowing how to provide for all probable demands have to do with success in any department of trade. Give Mr. Ward a call. See advertisement.

THE HOTEL INTEREST.—Harrisburg is celebrated for its fine hotels. One of the best in the city being the Franklin House, No. 217 Walnut street. It is centrally located and convenient to all places of business and amusement. It is conducted by the well known proprietor Frank Dietrich, "who knows how to keep a hotel." The traveling public will find it to their interest to give him a call. See advertisement.

DRY GOODS INTEREST. Of the several classes of business, the dry goods trade is one of the most important. It controls a greater amount of capital, employs a larger number of persons, and distributes a greater value of commodities than any other branch of mercantile pursuits. The most noticeable is the large, attractive and elegant dry goods establishment of Messrs. C. L. Bowman & Co. This dry goods palace, with its large frontage on Market square and extending in depth to Strawberry avenue, was formerly a market house; but owing to the large increase of Messrs. Bowman & Co.'s business, they were compelled to have more extensive quarters, and purchased this and fittied it up into a first-class dry goods establishment. They are now prepared to accommodate all who will give them a call. Messrs. Bowman & Co. deserve

credit for the manner in which they have conducted their business, and the accommodations rendered their customers. You will always find an active, pleasant, and courteous corps of ladies and gentlemen ready to show and sell, with the kind request "call again." See advertisement.

SHOE INTEREST.—There is no branch of business which our citizens point out to strangers, as an indication of the taste and prosperity of our city, with more pride than our large fine boot and shoe stores. Decidedly the finest and most prominent of these is the elegant establishment of Messrs. Forney & Stewart, No. 351 Market street. Messrs. Forney & Stewart do a large business, and in the great variety of goods contained in their establishment, at wholesale or retail, you will find an inviting stock for persons wishing to purchase the best, cheapest, neatest and most fashionable goods in the city. Their experience, courteous and affable manners, are sufficient to control an immense business, and they have it. Give them a call. See advertisement.

THE JEWELRY INTEREST.—It is estimated that with the importations from abroad, there are consumed in this country at least $25,000,000 worth of Jewelry a year. There are a number of good establishments in the city engaged in this business. But we must call your attention to the establishment of W. S. Morley, 25 N. Third street. Mr. Morley came to Harrisburg about 1873, opened his business up town near Broad street, but for want of room was compelled to seek another place. Mr. Morley has an elegant stock, and will mark it down, down, down. The integrity and high personal character of Mr. Morley, bespeak for him a liberal share of trade. See advertisement.

THE SMOOTHING IRON.—We cannot pass by the wonderful "Self Heating Iron and Fluting Device," an article every lady in the land should have. What would you think "husband" if you had to stand over a red hot stove in order to heat the irons, to iron your linen, &c., the thermometor 96 under a shed roof. Well, I guess we would have an errand down town, would'nt we? Yet the ladies put up with it. Do not forget to go and see this wonderful iron, that saves so much money, time, labor, &c. See advertisement.

DIGEST

OF THE

Pennsylvania Election Laws.

POLLS OPEN AT 7 A. M. AND CLOSE AT 7 P. M.

WHO CAN VOTE—Every male citizen, twenty-one years of age, possessing the following qualifications, shall be entitled to vote at all elections.

1 He shall have been a citizen of the United States one month.

2. He shall have resided in the State one year; or, if having previously been a qualified elector or native born citizen thereof, and shall have removed therefrom and returned, then he shall have resided therein six months immediately preceding the election.

3. He shall have resided in the district where he intends to vote two months immediately preceding the election, instead of ten days as heretofore. A residence is neither lost nor gained by being left in any poorhouse, nor while confined in prison.

4. If twenty-two years of age, or upwards, he shall have paid, within two years, a State or County Tax, which shall have been assessed at least two months previous to the election, and paid at least one month previous to the same.

5. The "naturalized" citizen must have been "naturalized" at least one month before the election.

6. All persons are required to take notice, that by the 15th Amendment of the Constitution of the United States, it is provided that "The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State, on account of race, color, or previous condition of servitude."

GENERAL ELECTIONS shall be held on the Tuesday next following the first Monday in November, in each year.

ELECTION FOR WARD, BOROUGH, ETC.—Elections for City, Ward, Borough and Township Officers, for regular terms of service, on the third Tuesday of February, in each year.

WOMEN TO HOLD OFFICE—Women twenty-one years of age, and upward, shall be eligible to any office of control or management under the school laws of this State.

WHO CAN BE ELECTION OFFICERS—No one can be an election officer who holds, or has held within two months of the election, any office, appointment, or employment in or under the government of the United States, or of this State, or of any municipal board, commission or trust, in any city. This excludes an objectionable class of persons who have heretofore figured largely among the election officers.

ELECTION OFFICERS—District Election Boards shall consist of a Judge and two Inspectors; each elector may vote for one person for Judge and one person for Inspector, the person receiving the highest number of votes to be Judge, and the two receiving the highest number of votes for Inspectors to be Inspectors. Each Inspector appoints a Clerk, who must be a qualified elector of the division. The Judge, Inspectors and Clerks each receive five dollars. Service upon an Election Board exempts the party so serving from jury duty for one year.

PERSONS NOT RESIDENT NOT TO INTERFERE—It is a misdemeanor for any person not a resident of the division to use any intimidation or violence to prevent any officer of election from performing his duties; or to prevent any person from exercising his right to vote; or to prevent any person from exercising his right to challenge a person offering to vote.

CLOSING OF THE POLLS AND COUNTING THE VOTES—As soon as the polls shall close, the officers of the election shall proceed to count all the votes cast for each candidate voted for.

The vote, as soon as counted, shall be publicly and fully declared, from the window, to the citizens present, and a brief statement, showing the votes received by each candidate, shall be made and signed by the election officers as soon as the vote is counted, and immediately posted up on the door of the election house, for information of the public. It is a misdemeanor for any person to willfully and maliciously tear, deface or destroy the statement or return so put up.

CANDIDATES VIOLATING THE LAW—Any person who, while a candidate for office, shall be guilty of the violation of any election law, shall be disqualified from holding an office of trust and profit in this commonwealth; and any person convicted of wilful violation of the election laws shall be deprived of the rights of sufferage for four years.

AN AMUSING SCENE, NO DOUBT; BUT CERTAINLY AN EXCELLENT PLAN TO PUNISH SCHOOL CHILDREN.

It matters not if it was in this city, or out of it. It happened in a school room, a "girl's" school. If it had been a boys school, one would suppose the teacher (a lady) was accustomed to that way of punishing. But to the scene: A little rosy cheeked, dimpled chin, dirty faced girl, not obeying the rules and regulations of the school, the teacher in all her majesty says, "Mary Ann Elizabeth Jane Johnson your presence is required at my desk." "Dimples" moving slowly, feeling guilty of something, and wondering what next—stood patiently for half an hour—when the teacher turned around and gave her a caudle lecture, threatening punishment, &c. But the teacher not using a rod in her school, thought "well, I'll kiss you." Turned up her dirty face and kissed her, saying: "Now be a good girl, won't you?" It had a good effect. Teachers would have better control over the little ones, as well as the "big un's," if they would govern more by love. It is one of the grand accomplishments of a teacher to be able to control a room full of children without using that hateful thing, the rod. I know something about it, and one six feet long, too; and when done, hardly a foot of it left—whew.

PUBLIC SCHOOLS.

The following School Statistics will no doubt be interesting to persons designing to locate in our city.

Below we give the number of Schools, Buildings, Pupils, Teachers, Directors and the amount of force, labor and means required to carry on the important work of educating the rising generation of this city. The public school system is an excellent one, and under the entire charge of Prof. D. S. Burns, the efficient City Superintendent; a competent Board of Directors, and an able corps of intelligent, energetic and faithful teachers, who would be a credit to any city, and of whom the citizens of Harrisburg, "The Capital of the Keystone State," may well be proud.

Young Men's Christian Association Rooms,

S. W. COR. SECOND & LOCUST STS.

G. M McCAULEY, President. JONES WISTER, Treasurer.

"ALL ARE WELCOME."

The Young Men's Christian Association, of Harrisburg, which was organized December 12, 1854, is one of the oldest organizations in this country.

Its new building, dedicated Sept. 5, 1877, of which we give a fine illustration, is situated on the S. W. Cor. Second & Locust Streets. It is owned and occupied exclusively by the association, has Library, Reading Rooms, Parlor, Boys' Reading and Class-Rooms, Committee Rooms, &c.; and on the upper floors comfortably furnished apartments, which are let out to young men. It has a membership of five hundred, a circulating library of seventeen hundred volumes. Social receptions extented to all, and a comfortable place for young men to read and talk. The business management is in the hands of a board of managers composed of leading business men.

To Whom it May Concern:

I embrace this opportunity with pleasure of bearing testimony to the efficacy of Holman's Liver Pad. I have for more than 25 years, suffered from sick headache; for which I have used nearly all the remedies usually prescribed, but without permanent benefit. The Pad gave me relief almost from the first, and I am sure that this remedy is all that its authors claim it to be.

HARRISBURG, April 13, 1878. REV. B. F. BECK, 610 Boas St.

Holman's Liver Pad Co:

Gentlemen:—It affords me great pleasure to add my testimony for the benefit I have received from Holman's Ague and Liver Pad. For over twelve years I have endured the horrors growing out of a torpid liver and dyspepsia, accompanied with violent headache, &c.; within a few weeks after using the Pad, all those long endured ills left me, and appetite restored. I have gained thirty-eight pounds in three months, and feel fully restored to health, for which I feel indebted to Holman's invaluable Pad. Yours respectfully, W. G. KAUFFMAN, 38 N. Thirteenth St.

HARRISBURG, May 31, 1878.

Holman's Liver Pad

Cures without medicine, exerting a specific and prompt action upon the Liver, Stomach, Spleen, Kidneys and Heart. It controls in an astonishingly short time any disease which attacks or grows out of those organs. The pad is a pre-

CHILLS! ventive and prompt and radical cure for all Malaria; also, Neuralgia, Rheumatism, Nervousness, Sciatica, Spinal Disease, Headache, Colic, Diarrhœa, Dyspepsia, etc. These and many more have their origin in the Stomach and Liver. It is worn exactly where needed over the vitals, the Liver and Stomach. It removes torpidity of the Liver and arouses the stomach from its dormant state, arresting fermentation by giving it the natural quantity of bile and gastric juice. It absorbs from the body every particle of blood poison, whether bilious, malarial or medicinal, and leaves the wearer in perfect health. If your druggist does not keep them, address
